

Hygiene requirements and guidelines for visitors of the FH Vorarlberg

Dear visitors of the FH Vorarlberg,

please take note that the following hygienic requirements and conditions must be strictly observed during meetings and visits on our campus:

- + It is in your responsibility not to expose other people to any risk of infection and not to enter any public rooms or FH Vorarlberg rooms if you have symptoms of illness or a risk of an infection. **If you feel ill or unwell, stay at home!** Alternatively, we recommend an online meeting.

- + During the entire stay, it is important to ensure that a **minimum distance of 1 meter** is maintained.

- + **Mouth and nose protection** must be worn in the entire public interior area of the campus as well as in the entrance area. Lecture halls, laboratories and offices, as well as reading and learning spaces at the library are exempt from this requirement, provided that a **minimum distance of one meter** can be maintained.

- + After entering the building, you must **wash or disinfect your hands** immediately. The FH Vorarlberg provides appropriate disinfectant at the main entrances.

- + **Group formations** are to be **avoided**. Compliance with the minimum distance applies to the entire building, in where the meeting takes place (also for waiting areas or in front of the building).

- + If you belong to the COVID-19 **risk group**, it is your own responsibility whether you participate a meeting as a visitor. There is no inquiry and **no liability** from the FH Vorarlberg.

- + Please notices the **hygiene measures** which are posted at the entrances to the building. These must be observed.

Thank you for your support and acknowledgement.

The management of the FH Vorarlberg
